Housing Outlook

- Since 2008, the City has allocated more than 80% of awarded disaster funding, nearly \$775 million, in housing-related programs. This includes \$20 million in DR-17 funding for homebuyer assistance through the HbAP 2.0 Program and \$40 million in DR-21 funding for the Winter Storm Uri Single-Family Home Repair Program, both of which kicked off last week.
- The City estimates that other federal funding, including approximately 50% of its annual CDBG and 90% of its HOME allocations, are estimated to contribute nearly \$106 million to housing-related programs over the next five years.
- The City was also a co-applicant with the Houston Housing Authority, to bring in a \$50 million dollar Choice Neighborhoods Implementation Grant to support the development of affordable rental housing (Cuney Homes) and spur investment in the surrounding community.
- The City will continue to seek opportunities for collaboration and leveraging to prioritize housing needs as it makes decisions on how to best utilize the limited federal funding the City receives.
