## Site-Specific Checklist

### **Project Information**

**Project Name: Home Repair Program**

**Responsible Entity: City of Houston, Housing & Community Development Dept.**

**Grant Recipient** (if different than Responsible Entity):

**State/Local Identifier:** Texas/Houston

**Preparer: Matthew Jenkins, Environmental Investigator V**

**Reviewer Name and Title: Melissa Lahey, Environmental Administration Manager**

**Grant Recipient** (if different than Responsible Entity):

**Consultant** (if applicable):

**Direct Comments to: HCD Environmental Team;** (832) 394-6319,  
[hcdenvironmental@houstontx.gov](mailto:hcdenvironmental@houstontx.gov)

**Project Location: 8905 Richland St., Houston, TX 77078**

**Description of the Proposed Project** [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

The work on this house is part of the Home Repair Program – and entails Reconstruction.

A Tier I Broad Environmental Assessment was completed for the Single-Family Home Repair Program - CDBG for rehabilitation and reconstruction activities. The Authority to Use Grant Funds was approved on January 8, 2020.

The goal in the HRP is to address repairs to alleviate threats to health, life, and safety hazards resulting from substandard conditions. We target homes owned and occupied by households earning no more than 80 % of Area Median Family Income.

Our program is not limited to low- and moderate-income elderly (62 or older) and disabled homeowners, but to also give priority to homes of employed applicants with minors, and unemployed applicants providing full-time care to disabled household members.

1. Tier III - Reconstruction
  - a) Those costing excess of \$80,000

**This Site-Specific Review is covered by a Broad Review from January 2020; this project was submitted to HCD Environmental in December 2024.**

**Compliance with 24 CFR 50.4, 58.5, and 58.6 Laws and Authorities**

Record below the compliance or conformance determinations for each statute, executive order, or regulation. Provide credible, traceable, and supportive source documentation for each authority. Where applicable, complete the necessary reviews or consultations and obtain or note applicable permits of approvals. Clearly note citations, dates/names/titles of contacts, and page references. Attach additional documentation as appropriate.

<b>Compliance Factors:</b> Statutes, Executive Orders, and Regulations listed at 24 CFR §58.5 and §58.6	Are formal compliance steps or mitigation required?	Compliance determinations
<b>STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR 50.4 &amp; 58.6</b>		
<b>Airport Hazards</b>  24 CFR Part 51 Subpart D	Yes    No <input type="checkbox"/> <input checked="" type="checkbox"/>	As far as airports are concerned, the affected areas include zip codes 77017, 77032, 77034, 77059, 77061, 77062, 77073, 77075, 77338, 77396, and 77598.  This project will be performed in zip code 77078, within the zip codes in the airport clear zones.  Nevertheless, airport clear zones are not a concern, because this subject property is outside of the HUD required search distances for civilian airports (2,500 feet) and military airports (15,000 feet).
<b>Flood Insurance</b>  Flood Disaster Protection Act of 1973 and National Flood Insurance Reform Act of 1994 [42 USC 4001-4128 and 42 USC 5154a]	Yes    No <input type="checkbox"/> <input checked="" type="checkbox"/>	The subject site is located outside of the floodway, the 100-year floodplain and the 500-year floodplain; flood insurance is not required by HUD federal regulations.  8905 Richland Dr. appears to be Zone X-unshaded, FEMA Flood Panel No. 48201C0685L, effective date 6/18/2007.  There is no evidence of preliminary or pending flood hazard changes for the property. See attached pending and preliminary flood mapping information for Harris County, showing no preliminary map

		and only two pending maps, both of which are located in flood panels different than the panel for the subject property.
<b>STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR 50.4 &amp; 58.5</b>		
<b>Coastal Zone Management</b>  Coastal Zone Management Act, sections 307(c) & (d)	Yes    No <input type="checkbox"/> <input checked="" type="checkbox"/>	While parts of Harris County do lie within the boundaries of the Coastal Zone, the subject property is not within those boundaries. Please refer to attached map Figure 1.
<b>Contamination and Toxic Substances</b>  24 CFR Part 50.3(i) & 58.5(i)(2)	Yes    No <input checked="" type="checkbox"/> <input type="checkbox"/>	During a site visit to the subject property on December 11, 2024, no evidence of the following conditions was observed: <ul style="list-style-type: none"> <li>- poor housekeeping (mounds of rubble, garbage, or solid waste or improperly stored household quantities of petroleum products, pesticides, paints, thinners, cleaning fluids, automotive batteries, damaged, abandoned, and/or dangerous vehicles or other motorized equipment; pits, pools, lagoons, or ponds of hazardous substances or petroleum products located on the site);</li> <li>- petroleum underground storage tanks (PUSTs);</li> <li>- above-ground storage tanks (ASTs) on the site, or immediate adjacent visible sites;</li> <li>- signs of surface staining;</li> <li>- any ground water monitoring or injection wells on the site;</li> <li>- evidence of a faulty septic system on the site;</li> <li>- permanent standing water, such as a pond or stream, located on the site; (besides run-off or ponding from recent weather events);</li> <li>- distressed vegetation on the site;</li> <li>- subject lot have water frontage;</li> <li>- visible apparent indication of mold;</li> <li>- visible apparent evidence of asbestos, lead-based paint, or hazardous materials present in the structure;</li> <li>- other unusual conditions on site.</li> </ul>

- *While one (1) 55-gallon drum was confirmed on site, it was reported empty and as being used for animal food storage, not industrial use.*

Additionally, site visit photos did not indicate evidence of prior use as a gas station, dry cleaner, motor vehicle repair facility, printing facility, photo lab, junkyard or waste treatment, storage or disposal facility such as sign posts, abandoned or inoperable pumps, store fronts, or dilapidated car storage was observed. There is no evidence to suggest fill dirt has been brought onto the site from another location. No pits, ponds, lagoons, stained soil, or discolored water was observed. There was no distressed vegetation (lawn) observed at any of the homes in the area. There were no visible vents or fill pipes observed on the site or adjoining site other than the one connected to the city water meter which does not appear to pose any environmental risk of note. No chemical odors were reported during the site visit. A copy of the damage assessment with environmental compliance data, and the site inspection photo documentation report, is included. The water is supplied by a municipal water purveyor. The subject property is a single-family home in a residential neighborhood with normal conditions, it has no apparent visible signs of on-site or off-site contamination, and no unusual odors were noted. The site visit was conducted on a sunny day, no notable street drainage issues identified. The surrounding properties were single family homes with no signs of industrial activity. The subject property is clear of environmental concerns.

Using NETROnline and a search for EPA, State, and Tribal Equivalent listed facilities - < ¼, ½ and/or 1-mile radius of the site was performed. A search of the TCEQ Central Registry did not indicate the presence of PSTs

on or adjacent to the subject property. The NETROnline search yielded the following:

RCRA Hazardous Waste Facilities:

There is one (1) RCRA hazardous waste handler noted in the NETROnline report, Family Dollar #1210. It does not have any evidence of significant non-compliance and no environmental issues stemming from its status as a RCRA hazardous waste handler are foreseen. This facility is also listed on the RCRAInfo site where it is analyzed separately.

Leaking Petroleum Storage Tanks (LPSTs):

¼ mile radius for due diligence screening. ASTM E2600-22 lists 1/10 mile (528 ft.) as primary Area of Concern (AOC) for petroleum products.

There are seven (7) LPST sites within a ½ mile radius of the subject property. All are over 528 ft (1/10 mile) from the site, which per ASTM E2600-22 is outside the primary area of concern (AOC) for Petroleum Hydrocarbon Contaminants of Concern (COCs). Two (2) LPSTs, ID #93343 and #119138, are within ¼ mile of the subject property so are being screened for extra due diligence. Both of these LPST sites have been closed by the TCEQ and show no evidence of being environmental concerns. This site, an existing house undergoing reconstruction, is unlikely to experience vapor intrusion.

Petroleum Storage Tanks (PSTs):

In addition to no PSTs being listed by TCEQ records on or adjacent to the subject property, the non-LPST PSTs listed on NETROnline are neither on nor adjacent to the subject property, and are outside the 528 ft (1/10

		<p>mile) ASTM Area of Concern in case any should ever experience a leak.</p> <p>Brownfield:</p> <p>While there is one (1) site, Tejas Tubular Process, on the Brownfield/IHWCA list within ½ mile of the subject property, it is located 0.4204 miles southwest, therefore outside the primary ASTM E2600-22 Area of Concern (AOC) for volatile chemicals of concern (VOCs/COCs), which is 1/3 mile (1,760 ft). Due to distance it is not expected to be an environmental concern.</p> <p>Other:</p> <p>Other non-ASTM factors in the NETROnline report (permitted, RCRAInfo, and UST) do not appear to pose an issue as there is no evidence of any sites that pose a substantial or undue risk to the subject property. While there are two (2) of these facilities that happen to be dry cleaners, Lakewood Laundry Cleaners (Permitted Facility) and Peoples Cleaners (RCRAInfo), NETROnline does not show them on its official list of dry cleaners and neither of them show up on the TCEQ active or closed dry cleaner remediation lists. <b><i>While Lakewood is listed by EPA as having been in remediation, TCEQ records indicate remediation was cancelled, and also indicate it is a non-perchloroethylene (non-PERC) site. Furthermore, Halls Bayou is located to the north/northeast of the subject property as well as Lakewood, and Lakewood is also located west-northwest of the subject property subject by approximately 500 feet. Given this, groundwater flow is expected to be primarily to the north and northeast, away from the direction of the subject property, so that even if there were a spill, any contamination related to it, along with vapor, would not be expected to affect the subject property at 8905 Richland. Furthermore, since records indicate that any chemicals used there would have been</i></b></p>
--	--	--

*non-PERC, they are not expected to have as far a reach or to have groundwater or vapor intrusion impact that perchloroethylene (PERC) might have were it actually on the property.* Peoples Cleaners is not listed on EPA, TCEQ or NETROnline records for remediation. EPA and TCEQ records do not indicate any of the remaining sites as having environmental concerns, and none of the EPA ECHO reports for RCRAInfo sites indicate violations. *Furthermore, this site is located to the northwest of the subject property by over 1,500 feet, and regardless of any PERC use, any groundwater flow is expected towards the bayou, north/northeast and away from the subject property.* Underground Storage Tanks (USTs) are neither on nor adjacent to the subject property, and are also outside the 1/10 mile primary ASTM Area of Concern in case any experienced a leak. These sites are not foreseen to pose environmental concerns.

Due to status and distance the sites named in the NETROnline report are not foreseen to have any adverse impact on the subject property.

A copy of the NETROnline environmental radius report is included along with a radius map showing the relative location of the subject property to the abovementioned facilities.

Lead and Asbestos:

Due to the age of this property, testing for lead-based paint and asbestos will be required, along with any necessary abatement and/or disposal of these substances as required by all applicable state, local, and federal rules and regulations.

Radon:

		<p>According to data from the CDC's National Environmental Public Health Tracking Network and Texas Tech's Texas Radon Group, mean and median pre-mitigation radon levels in single-family first floor living areas in Harris County are between 0 and &lt;2 pCi/L, which is well below the threshold for mitigation. However, single-family properties with basements in Harris County show a mean radon level of &gt;8 pCi/L, which is significantly above the threshold and requires mitigation.</p> <p>According to data supplied by the CDC and Texas Tech, single-family properties without basement areas within Harris County will not require mitigation. However, properties with basement areas will require additional testing and potential mitigation after reconstruction.</p> <p>Since the property under review does not contain a basement nor is a basement proposed during reconstruction, additional testing and mitigation are not required at this time. Should a basement area be constructed during this project, radon reduction best practices must be included during construction and the property must be tested for radon before becoming occupied. Any radon tests should be conducted in rooms that are living spaces, such as bedrooms, living rooms, or studies. If the test results are more than 4 pCi/L, a Soil Gas Mitigation Professional or a Qualified Contractor must be contacted to discuss the test results. If test results are consistently high enough, a mitigation system may be necessary.</p> <p>Mitigation:</p> <p>No environmental issues are foreseen, but in the event that any unexpected environmental conditions are discovered after closing/in the course of development, any ongoing work will need to cease until successful cleanup/mitigation of the unexpected</p>
--	--	---

		<p>environmental condition takes place, after which work can resume. HCD environmental must be notified as soon as any such discovery is made so that the project can be re-evaluated and mitigation documentation collected, verified, and placed on file to complete the environmental review record.</p>
<p><b>Floodplain Management</b></p> <p>Executive Order 11988, particularly section 2(a); 24 CFR Part 55</p>	<p>Yes    No  <input type="checkbox"/>   <input checked="" type="checkbox"/></p>	<p>The subject property is located outside of the floodway and floodplain. Floodplain Management regulations are not applicable. See attached flood map.</p> <p>8905 Richland Dr. appears to be Zone X-unshaded, FEMA Flood Panel No. 48201C0685L, effective date 6/18/2007.</p> <p>There is no evidence of preliminary or pending flood hazard changes for the property. See attached pending and preliminary flood mapping information for Harris County, showing no preliminary map and only two pending maps, both of which are located in flood panels different than the panel for the subject property.</p>
<p><b>Historic Preservation</b></p> <p>National Historic Preservation Act of 1966, particularly sections 106 and 110; 36 CFR Part 800</p>	<p>Yes    No  <input checked="" type="checkbox"/>   <input type="checkbox"/></p>	<p>A request for Section 106 review was sent to the Texas Historical Commission (THC) on December 30, 2024. The THC responded on January 15, 2025, and made the following statement for the subject property:</p> <p><b>Above-Ground Resources</b></p> <ul style="list-style-type: none"> <li>Property/properties are not eligible for listing in the National Register of Historic Places.</li> </ul> <p><b>Archeology Comments</b></p> <ul style="list-style-type: none"> <li>No historic properties affected. However, if cultural materials are encountered during construction or disturbance activities, work should cease in the immediate area; work can continue where no cultural materials are present. Please contact</li> </ul>

		<p>the THC's Archeology Division at 512-463-6096 to consult on further actions that may be necessary to protect the cultural remains.</p> <p>Please see the attached letter.</p>
<p><b>Noise Abatement and Control</b></p> <p>Noise Control Act of 1972, as amended by the Quiet Communities Act of 1978; 24 CFR Part 51 Subpart B</p>	<p>Yes    No</p> <p><input type="checkbox"/>    <input checked="" type="checkbox"/></p>	<p>See attached noise evaluation.</p> <p>8905 Richland Dr. is located less than 1,000 feet from a major thoroughfare, but more than 3,000 feet from a rail line. While the nearest airport (Bush) is less than 15 miles from the site and has been considered, its noise levels are below the elevated (i.e. 65 decibels (dB)) noise levels shown in the noise contour maps. Streets were determined to be major thoroughfares based on TxDOT Statewide Planning Maps and City of Houston traffic maps.</p> <p>Noise levels at 8905 Richland Dr. have been calculated at 57 dB which is ACCEPTABLE. Noise mitigation will not be required during construction.</p>
<p><b>Wetlands Protection</b></p> <p>Executive Order 11990, particularly sections 2 and 5</p>	<p>Yes    No</p> <p><input type="checkbox"/>    <input checked="" type="checkbox"/></p>	<p>The project area does not lie within or near a wetland, according to National Wetland Inventory (NWI) maps.</p>
<p><b>ENVIRONMENTAL JUSTICE</b></p>		
<p><b>Environmental Justice</b></p> <p>Executive Order 12898</p>	<p>Yes    No</p> <p><input type="checkbox"/>    <input checked="" type="checkbox"/></p>	<p>While this site may potentially have the presence for lead-based paint and asbestos, testing will take place, and abatement and proper disposal will be conducted as needed during demolition/reconstruction. Since all environmental issues are being addressed through mitigation as needed, issues regarding environmental justice are not foreseen.</p>

**Field Inspection (Date and completed by): December 11, 2024, Michael Rodriguez, Damage Assessor (Single Family Home Repair Program)**

**Mitigation Measures and Conditions [40 CFR 1505.2(c)]**

Summarize below all mitigation measures adopted by the Responsible Entity to reduce, avoid, or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements, and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure
<p>Contamination and Toxic Substances</p>	<p>Required (Lead and Asbestos):</p> <p>Due to the age of this property, testing for lead-based paint and asbestos will be required, along with any necessary abatement and/or disposal of these substances as required by all applicable state, local, and federal rules and regulations.</p> <p>Conditional (Radon):</p> <p>According to data from the CDC’s National Environmental Public Health Tracking Network and Texas Tech’s Texas Radon Group, mean and median pre-mitigation radon levels in single-family first floor living areas in Harris County are between 0 and &lt;2 pCi/L, which is well below the threshold for mitigation. However, single-family properties with basements in Harris County show a mean radon level of &gt;8 pCi/L, which is significantly above the threshold and requires mitigation.</p> <p>According to data supplied by the CDC and Texas Tech, single-family properties without basement areas within Harris County will not require mitigation. However, properties with basement areas will require additional testing and potential mitigation after reconstruction.</p> <p>Since the property under review does not contain a basement nor is a basement proposed during reconstruction, additional testing and mitigation are not required at this time. Should a basement area be constructed during this project, radon reduction best practices must be included during construction and the property must be tested for radon before becoming occupied. Any radon tests should be conducted in rooms that are living spaces, such as bedrooms, living rooms, or</p>

	<p>studies. If the test results are more than 4 pCi/L, a Soil Gas Mitigation Professional or a Qualified Contractor must be contacted to discuss the test results. If test results are consistently high enough, a mitigation system may be necessary.</p> <p>Conditional (Unexpected Discovery Mitigation):</p> <p>No environmental issues are foreseen, but in the event that any unexpected environmental conditions are discovered after closing/in the course of development, any ongoing work will need to cease until successful cleanup/mitigation of the unexpected environmental condition takes place, after which work can resume. HCD environmental must be notified as soon as any such discovery is made so that the project can be re-evaluated and mitigation documentation collected, verified, and placed on file to complete the environmental review record.</p>
<p>Historic Preservation</p>	<p>No historic properties affected. However, if cultural materials are encountered during construction or disturbance activities, work should cease in the immediate area; work can continue where no cultural materials are present. Please contact the THC's Archeology Division at 512-463-6096 to consult on further actions that may be necessary to protect the cultural remains.</p>

# City of Houston Home Repair Program Damage Assessment Questionnaire

**Case Information:**

**HRP #:** HRP-20240144  
**Applicant Name:** [REDACTED]  
**Address:** 8905 Richland St. Houston, TX 77078  
**Date of Assessment:** 12/11/2024  
**Damage Assessor:** Michael Rodriguez

**Property Information:**

**Is there evidence of damage from the 2015 event?**  YES  NO  
**Is there evidence of damage from Hurricane Harvey?**  YES  NO  
**If yes, briefly describe the damage:** [Click or tap here to enter text.](#)  
**Number of Buildings:** One  
**Detached Accessory Buildings:** N/A  
**Is the Unit Occupied**  YES  NO  
**Are the Utilities connected?**  YES  NO  
**Number of Units:** 1  
**Type of foundation:** slab  
**Does the subject lot have water frontage?**  YES  NO  
**If yes, type of bank stabilization:**  
**Is the property in the 100-year SHFA**  YES  NO  
**If yes, what is the grade of the 1<sup>st</sup> floor?** n/a  
**Building Type:** Wood frame single family house on slab  
**Number of Stories:** 1  
**Year Built:** 1970

**Inspectors Signature:** By signing this document, I agree that I performed or that I am familiar with, the site inspection(s) that are described above and certify that, to the best of my knowledge, the information is true and correct.

## Home Repair Program

### Damage Assessment Questionnaire

	YES	NO	ENVIRONMENTAL COMPLIANCE DATA
1	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Are there any signs of poor housekeeping on the site?                      (mounds of rubble, garbage, or solid waste or improperly stored household quantities of petroleum products, pesticides, paints, thinners, cleaning fluids, automotive batteries, damaged, abandoned, and/or dangerous vehicles or other motorized equipment; pits, pools, lagoons, or ponds of hazardous substances or petroleum products located on the site)</p> <p>a. If yes, ask the applicant about any known past uses.                      b. If yes, attach photos of suspected environmental issues.</p>
2	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Are there any 55-gallon drums or containers visible on the site?</p> <div style="text-align: right;">  </div> <p>a. If yes, are they leaking? No, Empty drums reported formerly used as animal feed storage.                      b. If yes, attach photos.</p>
3	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Are there any signs of petroleum underground storage tanks (PUSTs) on the site?</p> <p>a. If yes, are there UST vents or fill pipes visible on the site? Yes, Rear/Right Elevation                      b. If yes, attach photos.                      c. Are there any UST within 3000 ft. of the site?                      d. If yes, attach photos.</p>
4	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Are there any signs of above-ground storage tanks (ASTs) on the site, or immediate adjacent visible sites?</p> <p>a. If yes, describe?                      b. If yes, attach photos</p>
5	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Are there any signs of surface staining?</p> <p>a. If yes, attach photos.</p>
6	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Are there any ground water monitoring or injection wells on the site?</p> <p>a. If yes, describe the issue:                      b. If yes, attach photos.</p>
7	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Is there evidence of a faulty septic system on the site?</p> <p>a. If yes, attach the photos.</p>
8	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Is there any permanent standing water, such as a pond or stream, located on the site? (Do not include run-off or ponding from recent weather events)</p> <p>a. If yes, describe the issue:                      b. If yes, attach photos.</p>
9	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Is there any distressed vegetation on the site?</p> <p>a. If yes, describe the issue:</p>
10	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Does the subject lot have water frontage?</p> <p>a. If yes, describe the issue:                      b. If yes, attach photos.</p>
11	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Is there any visible apparent indication of mold?</p> <p>a. If yes, describe the issue:</p>

1

**FAMILY DOLLAR #1210**

8521 MESA DR

RCRA Name: FAMILY DOLLAR #1210

Source ID: TXR000082279

Facility Address: 8521 MESA DR

Facility City: HOUSTON

Registry ID: 110063379605

Significant Non-Compliance: No

Quarters with Non-Compliance: 0

Inspection Count: 0

Distance From Center (Miles): 0.1382

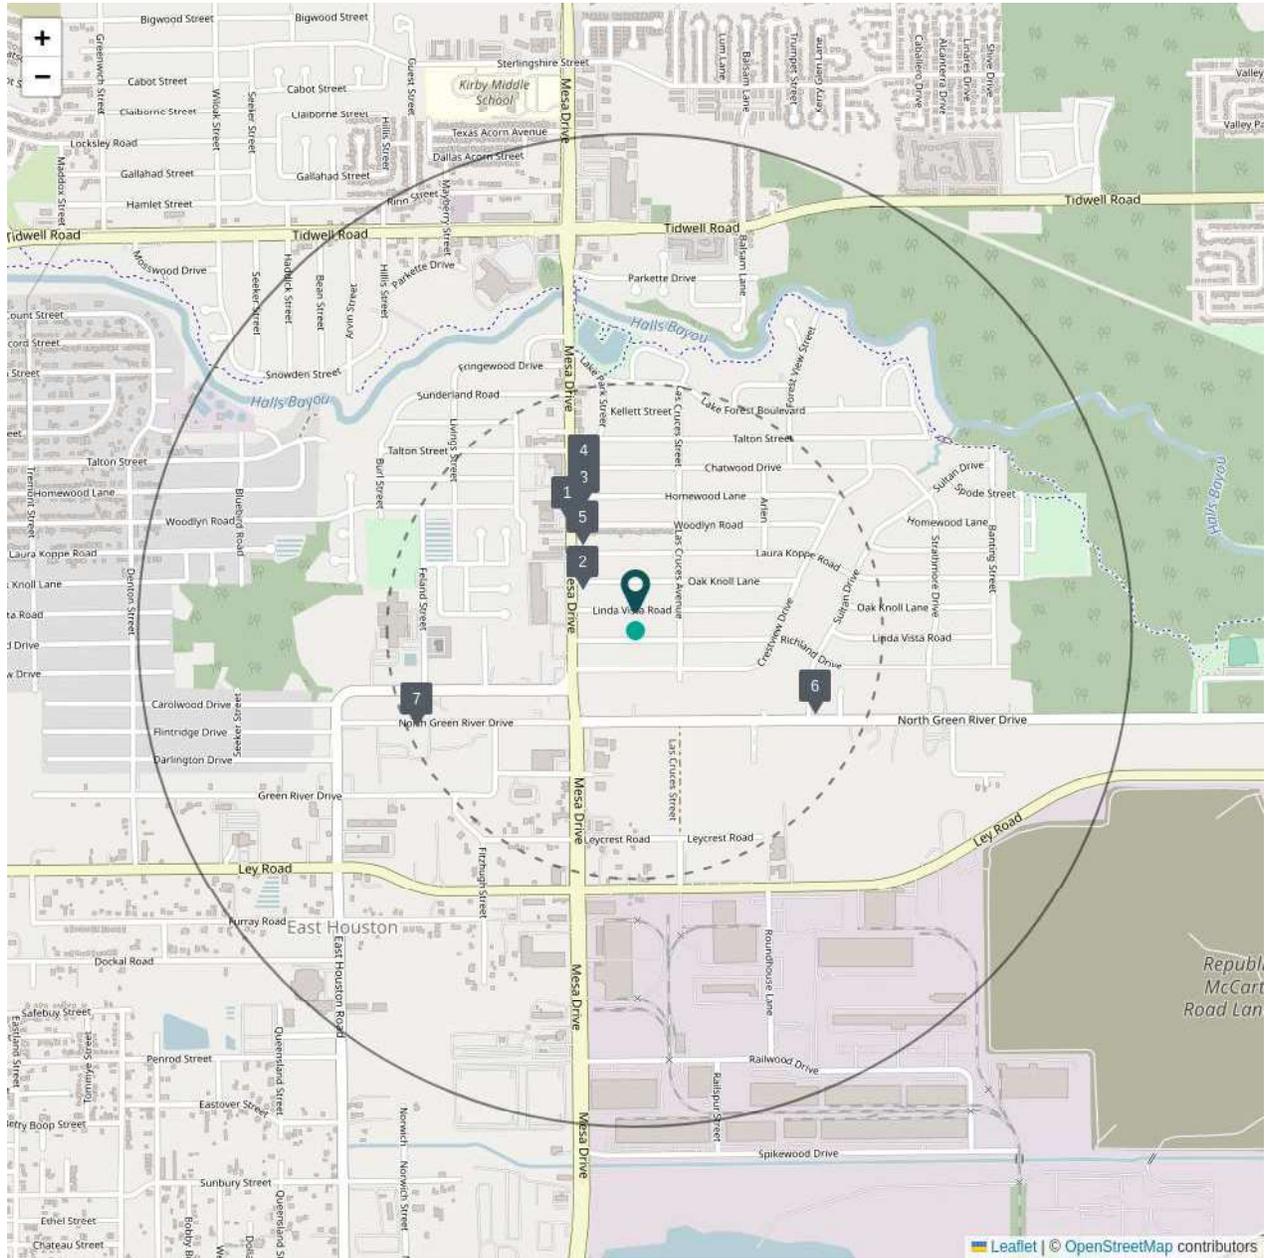

Site Source: last updated 02-14-2022 from TCEQ-HWF

This is a hazardous waste handler but does not show evidence of significant non-compliance. No environmental issues foreseen.

## Lists of state and tribal leaking storage tanks

### TCEQ - LEAKING UNDERGROUND STORAGE TANK

The Petroleum Storage Tank (PST) State Lead Program is authorized by law to remediate situations where a release from a PST system has occurred using the Petroleum Storage Tank Remediation (PSTR) Fund. This data layer contains locations of leaking PSTs that have been reported to and investigated by the State of Texas.

center: 29.838333,-95.260112

**Distance From Center (Miles):** 0.4204  
**Site Source:** last updated 11-18-2021 from TCEQ-HSWA

This site is over 1/3 mile away from the subject property, and outside the primary ASTM E2600-22 Area of Concern (AOC) for volatile chemicals of concern (VOCs/ COCs.

## State and/or tribal lists of permitted facilities

### TEXAS COMMISSION ON ENVIRONMENTAL QUALITY - AGENCY CENTRAL REGISTRY

The TX-TCEQ ACR is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc.) and their status.

# Resource Conservation and Recovery Act Information (RCRAInfo)

## RESOURCE CONSERVATION AND RECOVERY ACT INFORMATION SYSTEM

RCRAInfo is the Environmental Protection Agency's (EPA) comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976, as well as the Hazardous and Solid Waste Amendments (HSWA) of 1984. It facilitates monitoring events and activities related to facilities that generate, transport, treat, store, or dispose of hazardous waste. Furthermore, it is important to note that RCRAInfo includes all hazardous waste handlers, treatment, Storage, and Disposal Facilities (TSDFs), generators, and facilities currently undergoing RCRA corrective action. Users may encounter duplicate records pertaining to the TSDFs, generators, and/or sections concerning RCRA corrective action. This source has been searched for all records located within a half-mile radius of the target property.

# U.S. EPA Underground Storage Tanks (UST)

## EPA - UNDERGROUND STORAGE TANKS

About 542,000 underground storage tanks (USTs) across the country hold petroleum or hazardous substances. The most significant danger from a leaking UST is the possible contamination of groundwater, which serves as the drinking water source for nearly half of all Americans. The EPA collaborates with states, territories, tribes, and the industry to safeguard the environment and public health against potential leaks. The EPA has created UST Finder, a mapping tool that features a detailed, state-sourced national map of UST and leaking UST information. This tool offers details and locations for both active and decommissioned USTs, UST facilities, and leaking UST (LUST) sites, with state data from 2018-2019 and Tribal and US territory information from 2020-2021. This database was queried to retrieve records related to the target and neighboring properties.

#### Environmental Justice

This section shows indexes from EJScreen, EPA's screening tool for environmental justice (EJ) concerns. EPA uses these indexes to identify geographic areas that may warrant further consideration or analysis for potential EJ concerns. Use of these indexes does not designate an area as an "EJ community" or "EJ facility." EJScreen provides screening level indicators, not a determination of the existence or absence of EJ concerns. For more information, see the EJScreen home page.

#### Potential Environmental Justice Concerns

- Supplemental/EJ index percentiles >= 90 (Census block group)
- Supplemental/EJ index percentiles >= 90 (1-mile average)

Facility 1-mile Radius  Facility Census Block Group

**Demographic Profile of Surrounding Area (1-Mile Radius)**

This section provides demographic information regarding the community surrounding the facility. ECHO compliance data alone are not sufficient to determine whether violations at a particular facility had negative impacts on public health or the environment. Statistics are based upon the 2022 American Community Survey (ACS) 5-year Summary and are accurate to the extent that the facility latitude and longitude listed below are correct. Census boundaries and demographic data for U.S. Territories are based on the "2020 Island Areas Demographic Profiles" from the U.S. Census Bureau. EPA's spatial processing methodology considers the overlap between the selected radii and ACS census block groups in determining the demographics surrounding the facility. For more detail about this methodology, see the DFR Data Dictionary <<https://epa.gov/help/reports/dfi-data-dictionary#demographic>>.

General Statistics (ACS (American Community Survey))		Age Breakdown (ACS (American Community Survey)) - Persons (%)	
Total Persons	8,983	Children 5 years and younger	864 (10%)

## Central Registry Query - Regulated Entity Search

*Search for a person, organization, place, or thing that is of environmental interest to the TCEQ, where regulatory activities or interest to us occur or have occurred in the past.*

**! No results were found for the criteria you entered. Please try again. For hints on searching for Central Registry data, please see the [Search Hints](#) page.**

### Regulated Entity Search

#### Option 1: Enter a Regulated Entity Reference Number (RN):

**RN Number**  : (9 digits or RN + 9 digits)

**Search**

#### Option 2: Complete one or more of these fields:

**Regulated Entity:** (Name or part of name 2-40 characters.)

**Program:** PETROLEUM STORAGE TANK REGISTRATION 

**Program ID:** (Permit, registration, or other program identifier.)

**ID Status:**  (ID status, only used if program or ID entered.)

**Street Address**  : RICHLAND (3-35 characters.)

**City:** (Enter complete or partial city name, 3-30 characters.)

**ZIP Code:** (Must be numeric and 5 digits.)

**County:** HARRIS 

**Search**

**Clear**

# Mean Indoor Radon Concentration, pCi/L First Floor, Single Family Residences, 2020 AEL Dataset

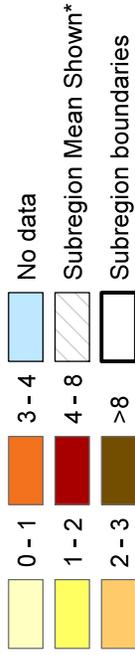

\*Shading (hatching) is used for counties where insufficient data were available to compute county statistics; color indicates the mean for the subregion in which the majority of radon tests were taken.

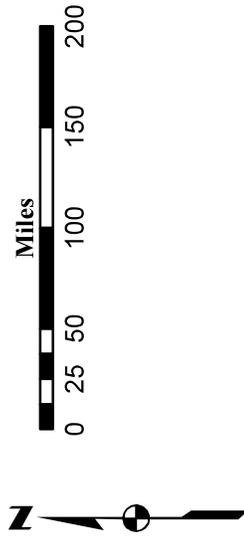

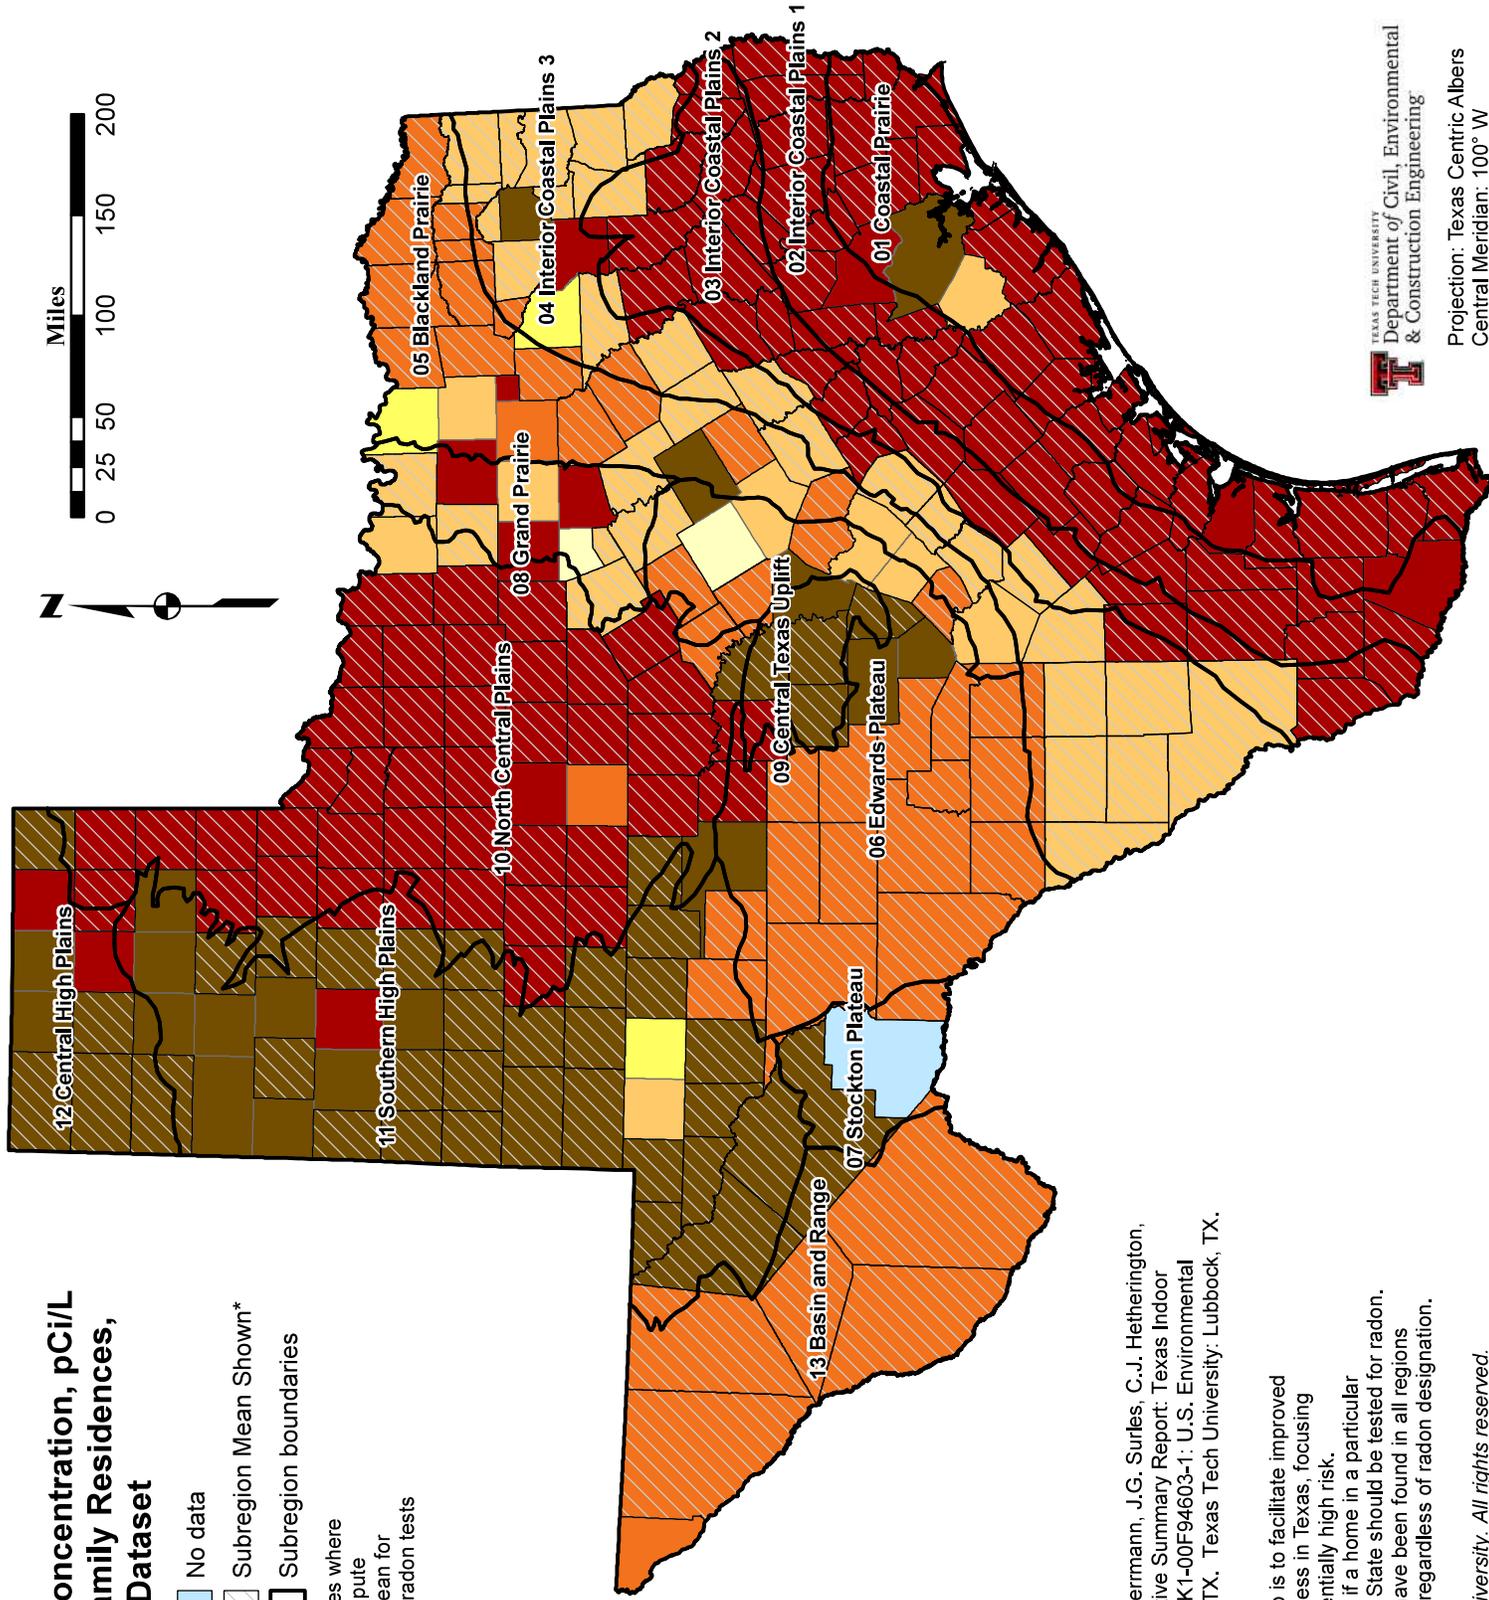

REFERENCE: Millerick, K.A., G.R. Herrmann, J.G. Surles, C.J. Hetherington, G. Cao, W.D. Lawson (2021). Executive Summary Report: Texas Indoor Radon Map 2020 Update. Grant No. (FAIN) 00F-94603: U.S. Environmental Protection Agency, Region 6, Dallas TX. Texas Tech University: Lubbock, TX.

**IMPORTANT:** The purpose of this map is to facilitate improved community outreach for radon awareness in Texas, focusing primarily on areas identified to be potentially high risk. This map is not intended to determine if a home in a particular county or physiographic region of the State should be tested for radon. Homes with elevated levels of radon have been found in all regions of Texas. All homes should be tested, regardless of radon designation.

# Mean Indoor Radon Concentration, pCi/L Basement, Single Family Residences, 2020 AEL Dataset

\*Shading (hatching) is used for counties where insufficient data were available to compute county statistics; color indicates the mean for the subregion in which the majority of radon tests were taken.

REFERENCE: Millerick, K.A., G.R. Herrmann, J.G. Surlis, C.J. Hetherington, G. Cao, W.D. Lawson (2021). Executive Summary Report: Texas Indoor Radon Map 2020 Update. Grant No. K1-00F94603-1: U.S. Environmental Protection Agency, Region 6, Dallas TX. Texas Tech University: Lubbock, TX.

**IMPORTANT:** The purpose of this map is to facilitate improved community outreach for radon awareness in Texas, focusing primarily on areas identified to be potentially high risk. This map is not intended to determine if a home in a particular county or physiographic region of the State should be tested for radon. Homes with elevated levels of radon have been found in all regions of Texas. All homes should be tested, regardless of radon designation.

# National Flood Hazard Layer FIRMette

95°15'55"W, 29°50'34"N

## Legend

SEE FIS REPORT FOR DETAILED LEGEND AND INDEX MAP FOR FIRM PANEL LAYOUT

**SPECIAL FLOOD HAZARD AREAS**

- Without Base Flood Elevation (BFE)  
*Zone A, V, A99*
- With BFE or Depth *Zone AE, AO, AH, VE, AR*
- Regulatory Floodway

0.2% Annual Chance Flood Hazard, Areas of 1% annual chance flood with average depth less than one foot or with drainage areas of less than one square mile *Zone X*

Future Conditions 1% Annual Chance Flood Hazard *Zone X*  
 Area with Reduced Flood Risk due to Levee, See Notes, *Zone X*  
 Area with Flood Risk due to Levee *Zone D*

OTHER AREAS OF FLOOD HAZARD

NO SCREEN *Zone X*  
 Area of Minimal Flood Hazard *Zone X*  
 Effective LOMR *Zone D*  
 Area of Undetermined Flood Hazard *Zone D*

OTHER AREAS

GENERAL STRUCTURES  
 Channel, Culvert, or Storm Sewer  
 Levee, Dike, or Floodwall

Cross Sections with 1% Annual Chance Water Surface Elevation  
 Coastal Transect  
 Base Flood Elevation Line (BFE)  
 Limit of Study  
 Jurisdiction Boundary

OTHER FEATURES

Digital Data Available  
 No Digital Data Available  
 Unmapped

MAP PANELS

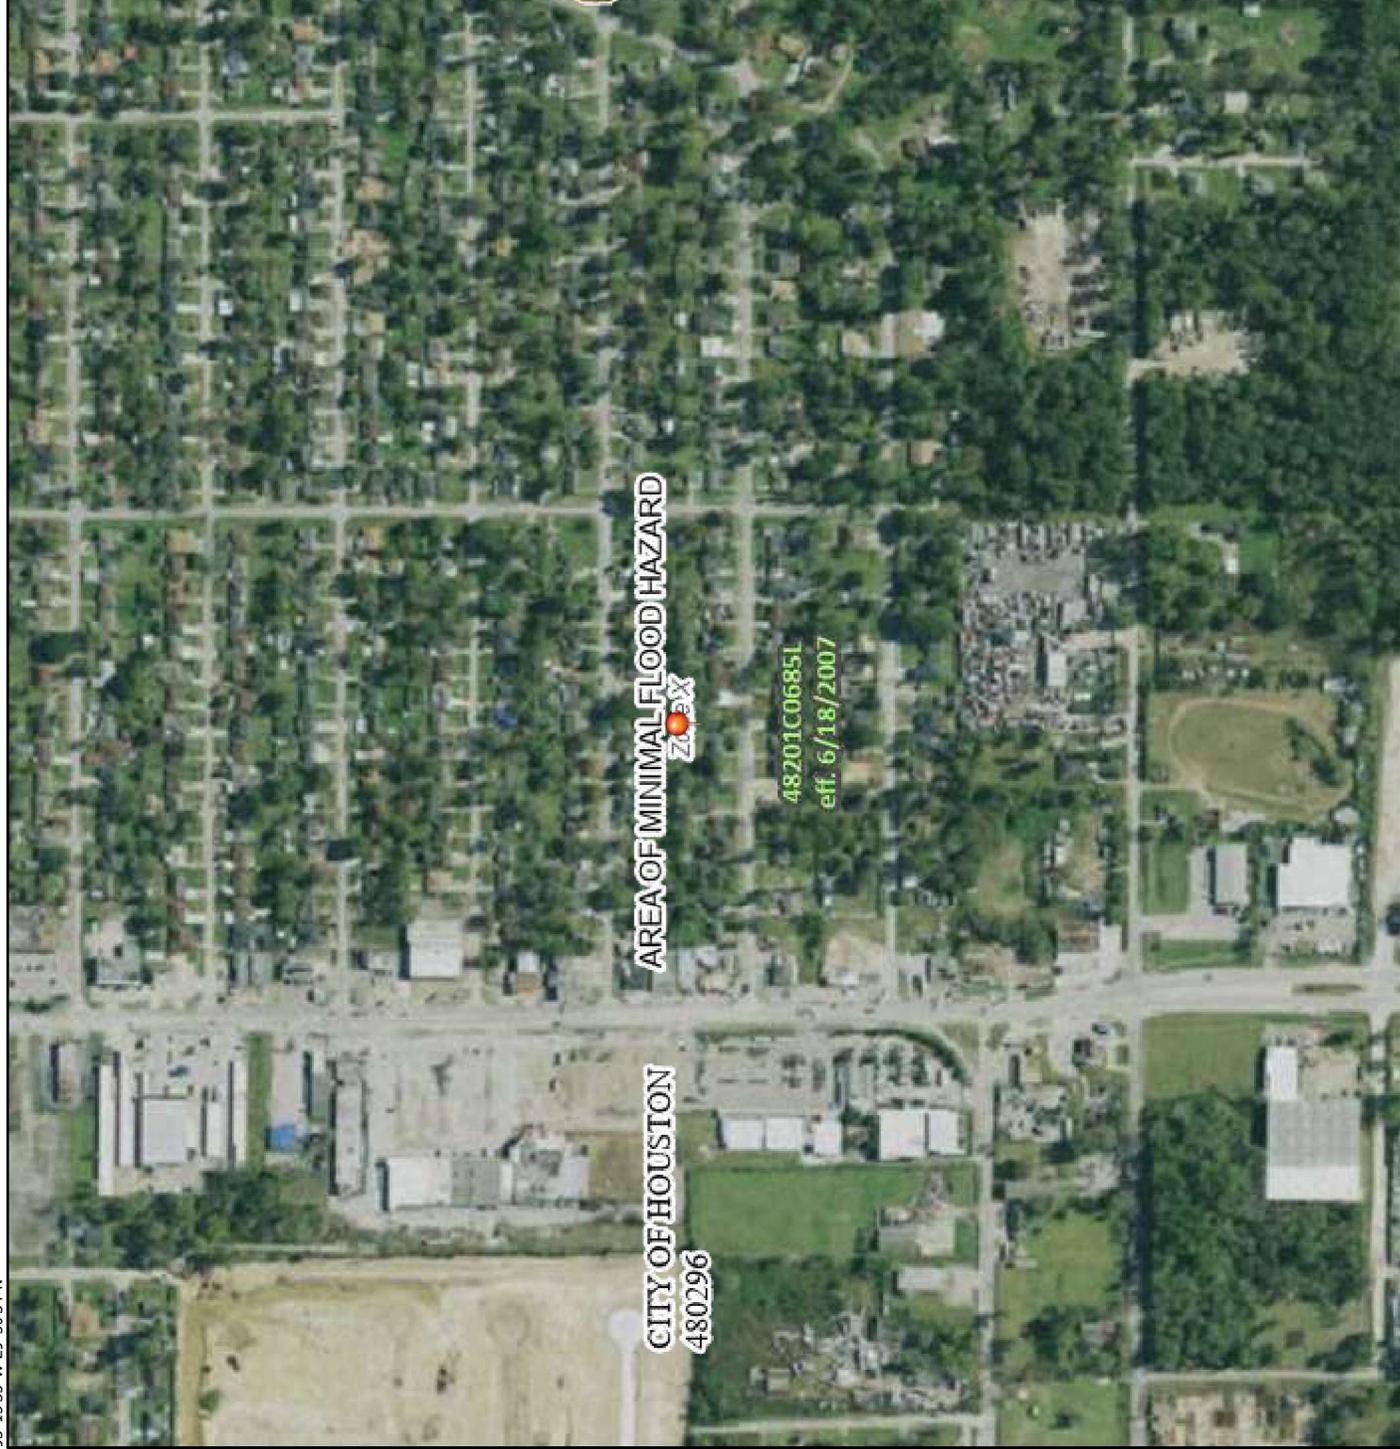

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 2/3/2025 at 4:55 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

95°15'18"W 29°50'2"N

5303 Brookmeade is in FEMA Flood Panel 865M and outside the pending floodplain map areas in Harris County.

**Re:** Project Review under Section 106 of the National Historic Preservation Act

**THC Tracking #202504586**

**Date:** 01/15/2025

SFHR - 8905 Richland Dr.

8905 Richland Dr.

Houston, TX 77078

**Description:** This project entails reconstruction of a single-family home on a 0.17 acre (7,444 sq. ft.) of land on the north side of Richland Dr. and west side of Las Cruces Ave.

Dear HCDD Environmental:

Thank you for your submittal regarding the above-referenced project. This response represents the comments of the State Historic Preservation Officer, the Executive Director of the Texas Historical Commission (THC), pursuant to review under Section 106 of the National Historic Preservation Act.

The review staff, led by Charles Peveto and Emily Dylla, has completed its review and has made the following determinations based on the information submitted for review:

**Above-Ground Resources**

- Property/properties are not eligible for listing in the National Register of Historic Places.

**Archeology Comments**

- No historic properties affected. However, if cultural materials are encountered during construction or disturbance activities, work should cease in the immediate area; work can

continue where no cultural materials are present. Please contact the THC's Archeology Division at 512-463-6096 to consult on further actions that may be necessary to protect the cultural remains.

We look forward to further consultation with your office and hope to maintain a partnership that will foster effective historic preservation. Thank you for your cooperation in this review process, and for your efforts to preserve the irreplaceable heritage of Texas. If the project changes, or if new historic properties are found, please contact the review staff. If you have any questions concerning our review or if we can be of further assistance, please email the following reviewers: [charles.peveto@thc.texas.gov](mailto:charles.peveto@thc.texas.gov), [emily.dylla@thc.texas.gov](mailto:emily.dylla@thc.texas.gov).

This response has been sent through the electronic THC review and compliance system (eTRAC). Submitting your project via eTRAC eliminates mailing delays and allows you to check the status of the review, receive an electronic response, and generate reports on your submissions. For more information, visit <http://thc.texas.gov/etrac-system>.

Sincerely,

Architectural Historian, Federal Programs

for Joseph Bell, State Historic Preservation Officer  
Executive Director, Texas Historical Commission

Mr. Charles Peveto, Chief Project Reviewer  
Texas Historical Commission  
P. O. Box 12276  
Austin, Texas 78711-2276

Re: Section 106 Review  
Reconstruction of Single-Family Home  
0.17 acre of land located at 8905 Richland Dr.  
Houston, Texas 77078

Dear Mr. Peveto:

Please accept and review the enclosed information on the above referenced project to be undertaken by the City of Houston. Environmental review procedures for federal programs issued in 24 CFR 58 require that we carry out this project in accordance with the Section 106 Review for the environmental process. We are looking for architectural and archaeological review and comment on this site.

This project entails reconstruction of a single-family home on a 0.17 acre (7,444 sq. ft.) of land on the north side of Richland Dr. and west side of Las Cruces Ave. This site is currently an existing single-family home. Bing aerial maps identify the site as "8905 Richland Dr.". Google maps identify roughly the same point as "8905 Richland Dr.". The site includes HCAD #0760390030062. This project has been designated as a reconstruction, which includes but is not necessarily limited to removal and replacement of the home's interior, and any necessary exterior work as well.

Enclosed for your review and comment is a site map, site photographs, an HCAD report, a City of Houston Planning & Development Historical District map, an aerial map, and a historical atlas map for the above-referenced federal project. This site is not located in an historical survey area and is not located within an officially designated historic district in Houston, Texas. We anticipate that your office concurs with our determination that the implementation of this project will not adversely affect a historic property.

If any additional information is needed, please contact the HCD Environmental Team at (832) 394-6319 or reach out by e-mail at [hcdenvironmental@houstontx.gov](mailto:hcdenvironmental@houstontx.gov) (also cc [Laura.Serrano@houstontx.gov](mailto:Laura.Serrano@houstontx.gov)).

Sincerely,

Handwritten signature of Melissa Lahey in blue ink.

**Building**

Building	Year Built	Type	Style	Quality	Impr Sq Ft	Building Details
1	1970	Residential Single Family	Residential 1 Family	Average	929 *	Displayed

\* All HCAD residential building measurements are done from the exterior, with individual measurements rounded to the closest foot. This measurement includes all closet space, hallways, and interior staircases. Attached garages are not included in the square footage of living area, but valued separately. Living area above *attached* garages is included in the square footage living area of the dwelling. Living area above *detached* garages is not included in the square footage living area of the dwelling but is valued separately. This method is used on all residential properties in Harris County to ensure the uniformity of square footage of living area measurements district-wide. There can be a reasonable variance between the HCAD square footage and your square footage measurement, especially if your square footage measurement was an interior measurement or an exterior measurement to the inch.

## Day/Night Noise Level (DNL) Calculator

The Day/Night Noise Level Calculator is an electronic assessment tool that calculates the Day/Night Noise Level (DNL) from roadway and railway traffic. For more information on using the DNL calculator, view the [Day/Night Noise Level Calculator Electronic Assessment Tool Overview \(/programs/environmental-review/daynight-noise-level-electronic-assessment-tool/\)](#).

### Guidelines

- To display the Road and/or Rail DNL calculator(s), click on the "Add Road Source" and/or "Add Rail Source" button(s) below.
- All Road and Rail input values must be positive non-decimal numbers.
- All Road and/or Rail DNL value(s) must be calculated separately before calculating the Site DNL.
- All checkboxes that apply must be checked for vehicles and trains in the tables' headers.
- **Note #1:** Tooltips, containing field specific information, have been added in this tool and may be accessed by hovering over all the respective data fields (site identification, roadway and railway assessment, DNL calculation results, roadway and railway input variables) with the mouse.
- **Note #2:** DNL Calculator assumes roadway data is always entered.

## Mitigation Options

If your site DNL is in Excess of 65 decibels, your options are:

- **No Action Alternative:** Cancel the project at this location
- **Other Reasonable Alternatives:** Choose an alternate site
- **Mitigation**
  - Contact your Field or Regional Environmental Officer (</programs/environmental-review/hud-environmental-staff-contacts/>)
  - Increase mitigation in the building walls (only effective if no outdoor, noise sensitive areas)
  - Reconfigure the site plan to increase the distance between the noise source and noise-sensitive uses
  - Incorporate natural or man-made barriers. See *The Noise Guidebook* (</resource/313/hud-noise-guidebook/>)
  - Construct noise barrier. See the **Barrier Performance Module** (</programs/environmental-review/bpm-calculator/>)
