FCM Engineers
Civil engineering design of paving

Success Story:
Dr. Frank Mbachu, PE, DEE, President

FCM Engineers, P.C (FCM) is a multi-disciplined engineering, architectural, planning and construction management firm. FCM is also a City of Houston Minority Business Enterprise (MBE), Small Business Enterprise (SBE), and State of Texas Historically Underutilized Business (HUB) firm, and currently has 11 Professional Engineers, management and technical professionals. This professional team is highly experienced and has conducted the management and successful implementation of numerous civil engineering design, architectural design and construction management services projects. The FCM staff is very knowledgeable of the current standards and criteria governing the projects in the City of Houston, Harris County, Fort Bend County, TXDOT, Galveston County, Harris County Flood Control District and TCEQ. Using the latest technology available and the vast experience of the entire staff, the FCM professionals, collectively, have successfully completed over \$100 million in projects over the last ten (10) years.
