

CERTIFICATE OF APPROPRIATENESS

Deferred 09/14/2023

Application Date: August 4, 2023

Applicant: Sam Gianukos, agent for Cody Miller, owner.

Property: 509 Teetshorn Street, Lot 14, Block 24, Woodland Heights Subdivision. The property includes a historic 980 square foot, one-story wood frame single-family residence situated on a 6,350 square foot (50' x 127') interior lot.

Significance: Contributing craftsman residence, constructed circa 1920, located in the Woodland Heights Historic District.

Proposal: Alteration – Addition

The applicant is proposing to construct a two- story addition with an attached garage. The ridge of the addition will be 28'-9" and the eave height 22'. The applicants propose the following:

- The proposed and existing first floor will be 2405 SF
- The addition will be clad in new treated smooth Cementous Hardie siding.
- All new windows will be inset and recessed.
- The non-original front door will be replaced with a custom Craftsman style wood door.
- Two windows will be removed at the rear of the existing house and will be filled in with siding to match existing.
- The addition will have a 5/12, 6/12 pitch hip, gable roof with material to match existing roof.

See enclosed application materials and detailed project description for further details.

Public Comment: Three letters of support. See attachment A

Civic Association: No comment received.

Recommendation: Approval

HAHC Action: -

APPROVAL CRITERIA

ALTERATIONS, REHABILITATIONS, RESTORATIONS AND ADDITIONS

Sec. 33-241: HAHC shall issue a certificate of appropriateness for the alteration, rehabilitation, restoration or addition of an exterior feature of (i) any landmark, (ii) protected landmark, (iii) any building, structure or object that is part of an archaeological site, or (iv) contributing building in a historic district upon finding that the application satisfies the following criteria, as applicable:

S D NA

S - satisfies D - does not satisfy NA - not applicable

- (1) The proposed activity must retain and preserve the historical character of the property;
(2) The proposed activity must contribute to the continued availability of the property for a contemporary use;
(3) The proposed activity must recognize the building, structure, object or site as a product of its own time and avoid alterations that seek to create an earlier or later appearance;
(4) The proposed activity must preserve the distinguishing qualities or character of the building, structure, object or site and its environment;
(5) The proposed activity must maintain or replicate distinctive stylistic exterior features or examples of skilled craftsmanship that characterize the building, structure, object or site;
(6) New materials to be used for any exterior feature excluding what is visible from public alleys must be visually compatible with, but not necessarily the same as, the materials being replaced in form, design, texture, dimension and scale;
(7) The proposed replacement of exterior features, if any, should be based on an accurate duplication of features, substantiated by available historical, physical or pictorial evidence, where that evidence is available, rather than on conjectural designs or the availability of different architectural elements from other structures;
(8) Proposed additions or alterations must be done in a manner that, if removed in the future, would leave unimpaired the essential form and integrity of the building, structure, object or site;
(9) The proposed design for any exterior alterations or addition must not destroy significant historical, architectural, archaeological or cultural material, including but not limited to siding, windows, doors and porch elements;
(10) The proposed alteration or addition must be compatible with the massing, size, scale material and character of the property and the context area; and
(11) The distance from the property line to the front and side walls, porches, and exterior features of any proposed addition or alteration must be compatible with the distance to the property line of similar elements of existing contributing structures in the context area.

Ms. Arslan, please see below my letter regarding the plans for 509 Teetshorn.

Meg & Cody -- I appreciate you sharing these drawings with us that you are planning for your future home down the street.

We have loved living on Teetshorn and your plan for remodeling the existing home on the 500 block will be a welcomed addition to the neighborhood.

I have to say that after flipping through the plans, it stands out to me that you have such a welcoming front porch and front yard feel which is a much loved aspect of so many of the homes in this neighborhood.

In looking at the expansion built up towards the rear of the property, it looks to be adding some excellent living space that you'll enjoy while keeping the familiar look and feel of the original homes on these blocks. In particular, this will be well received because the garage and second story addition is set so far back from the street and the front facade of the home. You'll still have the long drive leading back to the garage and the 2nd story addition. This is a nice contrast to some of the other homes that I've seen where the garage and upper level are pulled forward.

I'm not sure how much use you'll be getting from the chimney here in Houston, but it is cool that you're keeping that feature from the home for the 2-3 day a year that it'll be needed - we'll know where to go if we're looking for a fire to keep warm next time a winter blast comes through Houston.

Keep us posted on your progress, and we look forward to having you join us on Teetshorn.

Thanks,
John

Thanks for sharing your plans for the 509 Teetshorn. I have really enjoyed living in the Heights for the last 12 years, and love living on Teetshorn.

I appreciate the way your plans stay true to the original architecture in the neighborhood. Maintaining the historic front porch and front facade is very welcoming. I love the setback of the garage and the second story, keeping that bungalow feel while giving you more living space. Several homes in the neighborhood encroach on the street and seem to tower over the sidewalks. I like that your addition is set further back for ample yard and play space.

I value that you are giving room to keep all the existing trees. This house has been unlivable for years and I am so excited to see your vision to bring it back to its former glory. I look forward to having your family and this beautiful home as neighbors!

Thanks for taking the time to be so thoughtful about this process.

Sheila Ogden

Meg and Cody,

Sorry for the delay in writing but Linda and I have been out of town for a week, away from the heat! These plans look perfectly acceptable to us, and a welcome addition to the block. If you need an approval signature from neighbors to get through the historical commission I'd be happy to sign. How many square feet will you have in total?

Good luck!

Clinton [redacted]
